

PLACEMENT TRAINING - INTERVIEW PREPARATION

The SIMATS Deemed University boasts of unparalleled facilities that are designed to prepare the students for their placement interviews with confidence and poise. The university houses 24 interview chambers, which are state-of-the-art and equipped with the latest technology to provide an authentic and realistic experience. The students can practice their interview skills in a professional and conducive environment, which greatly boosts their confidence. In addition to the interview chambers, the university has 14 discussion rooms where the students can engage in interactive sessions and engage in meaningful discussions with their peers and faculty. These discussion rooms provide a platform for the students to develop their communication skills, critical thinking, and problem-solving abilities.

The SIMATS Deemed University also has 6 audiovisual labs where the students can hone their presentation skills and learn the art of delivering effective and engaging presentations. The labs are equipped with modern audio-visual aids, making it easy for the students to create visually appealing presentations that are sure to make a lasting impression on their interviewers.

Moreover, the university has an expert team of faculty who are knowledgeable, experienced, and passionate about helping the students achieve their career aspirations. They provide personalized guidance and support to the students, helping them overcome their weaknesses and develop their strengths. In addition to the conventional training, the university also provides skill development training, such as oratory training and foreign language training, which are essential for the interview sessions. The oratory training helps the students improve their public speaking skills, while the foreign language training enables them to communicate effectively in a foreign language, adding another dimension to their language proficiency.

In conclusion, the SIMATS Deemed University is truly a hub of excellence, providing the students with the best facilities and training programs to help them achieve their goals and succeed in their careers.
