

PLACEMENTS MOU

Saveetha Institute of Medical and Technical Sciences (SIMATS) is a deemed university that has established partnerships with various universities both nationally and internationally. These partnerships are in the form of Memorandums of Understanding (MOUs) that allow for a range of opportunities for both students and faculty members. These opportunities include student exchange programs, where students can study at partner universities for a period of time, and faculty exchange programs, where faculty members can teach or conduct research at partner institutions. Additionally, the MOUs provide placement facilities for graduates, giving them the opportunity to work in organizations associated with the partner universities. These partnerships play an important role in fostering international collaboration and providing a rich educational experience for students and faculty
