

HIGHER EDUCATION TRAINING - PLACEMENT CLUB

The Saveetha Institute of Medical and Technical Sciences has a dedicated placement and training department that strives to assist its students in securing placements in renowned companies and organizations. The curriculum is designed keeping in mind the industry requirements and to prepare students for entry-level positions in various fields such as engineering, healthcare, coaching, and staffing.

The academic year 2021-2022 witnessed a remarkable achievement for the institute with over 92% of its students being successfully placed in top organizations with attractive salary packages. This is a significant improvement over the previous years, where the numbers ranged from 89-93%. This remarkable achievement is a testament to the quality of education provided by the institute and the dedicated efforts of its placement and training department.

With over 1500 students benefiting from these employment opportunities, the institute has proved to be a reliable platform for students to launch their careers. The high placement percentage is a reflection of the trust that companies and organizations have in the institute's graduates and their ability to contribute to their respective fields. Overall, the Saveetha Institute of Medical and Technical Sciences has consistently demonstrated its commitment to providing quality education and ensuring the success of its students in the professional world. The institute's placement and training department has played a pivotal role in this success, and their efforts are commendable.
